

MINH, Ngoc Truong NGUYEN (DOB: 20/10/1983)

Current Position:

- Full-time Lecturer
- Acting Dean, in charge of School of Electrical Engineering
- Head of Department of Telecommunications

Current address: 2/37 Street No. 07, Do Thanh Residence, Ban Co Ward, HCMC, Vietnam

Work address: International University, Vietnam National University HCMC

Quarter 33, Linh Xuan Ward, Ho Chi Minh City, Vietnam

Office: +84-28 3724 4270 – Ext.: 3231 **Mobile:** +84 (0)903 760 100

E-mail: nntminh@hcmiu.edu.vn – ngoctruongminh.nguyen@gmail.com

LECTURER IN ELECTRICAL ENGINEERING

PhD in Electronics and Telecommunications

15-year experience in education, strong in collaborating with universities and industrial agencies

12-year experience in IT outsourcing, 9-year experience in e-/Digital Gov and Digital Transformation

Fluent in English and French

EDUCATION

08/2026	Certificate in Professional Training for Higher Education and Teacher Education Accreditation Assessors – Center for Education Accreditation, VNU-HCM
10/2024	TOGAF™ Enterprise Architect certified by HPT Group, Vietnam
05/2023	Certificate of Professional Title Standards for University Lecturers, University of Social Sciences and Humanities, VNU-HCMC
08/2018	Certificate on Educational Teaching Methodology, Ho Chi Minh City University of Education, Vietnam
10/2015	Certificate of completion of a six-week training program on the Fundamentals of the Internet of Things (IoT) by a Multidisciplinary team of ASU faculty and Industry partners and Higher Engineering Education Alliance Program Faculty Development Training in Tempe, Arizona, United States of America
07/2012	Certificate of Active Learning in Credit Based System, University of Science, HCMC, Vietnam
2008 – 2011	PhD degree in Telecommunications, University Pierre and Marie Curie (Paris VI), France
2007 – 2008	Master degree in Electronics and Telecommunications, University Paris Sud (Paris XI) – ENS Cachan – Centrale Supélec, France
2001 – 2006	Engineering degree in Electronics and Telecommunications, Ho Chi Minh City University of Technology (HUT), Vietnam
	Bachelor degree in English Literature, Hanoi University of Language, Vietnam
1998 – 2001	Le Hong Phong high school for the gifted, HCMC, Vietnam

PROFESSIONAL EXPERIENCE

03/2012 – now	Lecturer and Scientific Researcher in different domains (RF design & EM modeling, Satellite Communications, AI&ML, Data Science and Analytics, Computer Vision) at School of Electrical Engineering, International University, Vietnam National University HCMC
01/2022 – now	Invited Lecturer at Columbia Southern University (CSU) – MBA Program (Management Information Systems)
09/2020 – now	Invited Lecturer at FPT University – MSE Program (Digital Image and Video Processing)
09/2016 – now	Invited Lecturer at HCMC University of Technology (HUTECH) – International Program
02/2014 – now	Invited Lecturer at Vietnamese German University (VGU) – CS Program (Operating Systems, Multidisciplinary Project)
01/2014 – 08/2015	Invited Lecturer at University of Science and Technology of Hanoi (USTH) – Vietnam France Program

2008 – 2011	PhD student in Laboratory of Electronics and Electromagnetism (L2E), University Pierre and Marie Curie (Paris VI), France
11/2009 – 04/2010	Invited researcher in collaborated project with Temasek Laboratory, Nanyang Technological University (NTU), Singapore
01/2008 – 07/2008	Scientific researcher in Centrale Supélec, France
06/2006 – 08/2007	Data analyst in BPO outsourcing company Officience, Vietnam
04/2005 – 07/2005	Internship as Telecom engineer (GSM network) in Cityphone, Vietnam

MEMBERSHIP OF PROFESSIONAL ASSOCIATIONS

IEEE (Institute of Electrical and Electronics Engineers –Geoscience and Remote Sensing Society, Antennas and Propagation Society, Signal Processing Society)
REV (Radio Electronics Association of Vietnam)
TOGAF (The Open Group Architecture Framework)

PROFESSIONAL AND LANGUAGE SKILLS

English, French	Fluent	Spanish	Beginner
Computer Science	Good in Programming (Python/R, MATLAB/Octave, Java, C/C++, VHDL/Verilog...), Data Analysis Tools (Tableau, Power BI & Power Query, PostgreSQL, MongoDB), AI Modelling, OS, especially for management and simulation purposes		
Professional Skills	Enterprise Architecture (EA), Business Architecture (BA), TOGAF, ITIL, Project scheduling, Project management, Risk management, SDLC...		

PROFESSIONAL ACTIVITIES RELATED TO ENTERPRISE ARCHITECTURE, IT MASTER PLAN, AND DIGITAL TRANSFORMATION

2020 – 2022	Team member in Digital Transformation training and digital capability program for EVNSPC, Binh Duong, Binh Thuan provinces, HR capability framework in IT for EVNHCMC, common use software integration architecture for EVN
Coaching	Professional courses related to enterprise architecture, IT governance, IT service management, IT capability framework and digital transformation for many enterprises (Đạm Phú Mỹ, HPT, EVN, Nghi Son Refinery...) and groups of IT managers and staff in government agencies (Ho Chi Minh City, Dong Nai, Binh Duong, Tra Vinh, Binh Thuan, Quang Ngai provinces...)

INTERESTS AND OTHER ACTIVITIES

Interest	Social activities, travelling
Leisure	Books, music, sports, e-games
Other activities	General Secretary of International Conference on Advanced Technologies for Communications (ATC 2013), HCMC, Vietnam Member in Technical Program Committee (TPC) / Reviewers of some International Conferences (CAMA, ATC, ACOMP, TENCON, CommanTel, ICGHIT, NICS...)

TEACHING EXPERIENCES

Courses taught

Undergraduate	International University (full-time): <i>Telecommunication Networks, Computer and Communications Networks, Emerging Technologies, Space Communications, Antennas and Microwave Engineering, Electromagnetic Theory, Programming for Engineers, Business Computing Skills, Management Information Systems</i> Vietnamese German University (visiting): <i>Introduction to UNIX/Linux, Programming for Engineers, Information Security</i> Hutech/UEF (visiting): <i>Basic Concepts of IT, Programming for Engineers, Data Structures and Algorithms</i> University of Science and Technology of Hanoi(visiting): <i>Antennas and Microwaves</i> Pôles Universitaires Français (visiting): <i>Informatique</i>
Graduate	International University: <i>Information and Coding Theory, Linear Systems, Digital Communications, Computational for Electromagnetic, Advanced Antenna Design, Digital Speech and Image Processing, Digital Government, Policies and Public Services</i>

	Columbia Southern University (visiting): <i>Management Information Systems</i> FPT University (visiting): <i>Digital Signal Processing, Digital Image and Video Signal Processing, Artificial Intelligence</i>
Short courses	<i>e-Government, Digital Transformation, Cybersecurity, Data Analysis, Internet of Things, Artificial Intelligence and Machine Learning, Cloud Computing, Database Management, Python/R, C/C++/C#, Java Programming (basic and advance)</i>
Notable lectures	Introduction to Big Data, Introduction to Blockchain, Introduction to IoT and Artificial Intelligence (EVN-HCMC), AI Applications in Business, Probabilities and Statistics (GENCO-2), ChatGPT – Introduction and How to Use Effectively (HCA, some enterprises...), Data Analysis for Business (L'Oréal Vietnam)...

PUBLICATIONS

2010	N. T. Minh Nguyen, D. Lautru, et H. Roussel, “<i>La caractérisation de la diffusion bistatic par un environnement urbain en bande-X</i>,” Journée des Doctorats, Université Pierre et Marie Curie, Jun. 2010, Paris, France N. T. Minh Nguyen, D. Lautru, and H. Roussel, “<i>Characterization of the scattered field by an urban area in the X-frequency band for bistatic and monostatic radar configurations</i>,” The 2010 IEEE International Geoscience and Remote Sensing Symposium (IGARSS), Jul. 2010, Honolulu, USA, ISBN: 978-1-4244-9566-5
2011	N. T. Minh Nguyen, D. Lautru, and H. Roussel, “<i>A 3-D model to characterize high frequency scattering by urban areas for monostatic and bistatic radar configurations</i>,” Progress In Electromagnetics Research B, PIER B, Vol. 30, 83–102, May 2011, ISSN:1937-6472 N. T. Minh Nguyen, D. Lautru, et H. Roussel, “<i>Modèle 3-D de diffusion par des zones urbaines en bande X: Application à la détection radar en mode bistatique et/ou monostatique</i>,” Journées Nationale Micro-ondes (JNM), Apr. 2011, Brest, France N. T. Minh Nguyen, D. Lautru, et H. Roussel, “<i>MESUA: Un modèle appliqué à la détection radar en mode bistatique et/ou monostatique</i>,” GDR Ondes, Jun. 2011, Paris, France
2012	N. T. Minh Nguyen, D. Lautru, and H. Roussel, “<i>MESUA: A model dedicated to radar detection in bistatic and/or monostatic mode</i>,” Advanced Electromagnetics Symposium (AES), Apr. 2012, Paris, France N. T. Minh Nguyen, “<i>MESUA: A Model Applied to Target Detection in Urban Areas in Bistatic and/or Monostatic Radar Mode</i>”, The 2012 International Conference on Advanced Technologies for Communications (ATC'12), Oct. 2012, Ha Noi, Vietnam, ISBN: 978-1-4673-4352-7
2013	N. T. Minh Nguyen , “ <i>An Effective Scattering Model for 3-D Urban Propagation: Application to Moving Target Detection at High-Frequency Bands</i> ”, The 2013 International Conference on Advanced Technologies for Communications (ATC'13), Oct. 2013, Ho Chi Minh City, Vietnam, ISBN: 978-1-4799-1089-2
